

# Are you a superstar fitness professional looking for another string to your bow?

## Tutor/Mentor/Assessor

We are currently recruiting Fitness **Tutor/Mentor/Assessors** across the UK to work with students currently undertaking a number of fitness qualifications including:

- \* Level 2 Gym Instructor
- \* Level 3 Personal Trainer
- \* Level 3 Exercise Referral
- \* Level 4 Lower Back Pain Management
- \* Level 4 Obesity and Diabetes Management

We typically work with students on a one to one or small group basis in areas local to them in their gym. This role is designed for a currently established personal trainer or fitness manager to fill the quiet times in their diaries and build a supplementary income. This is on a self-employed basis.

Our tutors work on the basis of being given students by the company, but we also expect tutors to market themselves locally with our help to get more business for themselves. To support this, we offer a high pay package on a pay per learner basis at £500-£1000 per student with the scope for tutors to manage their own diary and potentially group learners together for extra pay.

The role mainly involves delivering and assessing the practical elements of the course from technique to advanced training systems through to health and fitness assessments as well as marking paperwork. This is to support our cutting-edge online platform content that every learner has access to throughout their journey.

We are looking for first rate professionals who can add value to what is currently an already very strong team. The minimum experience and qualifications we are looking for is as follows:

- Internationally recognised Personal Training qualification (NASM, ACSM, Active IQ, YMCA, ACE)
  - Five years + experience with a successful track record in fitness
  - Level 4 specialist qualifications and/or a science-based degree
    - A strong CPD track record
    - Level 3 Education and Training or higher
    - Level 3 Assessing qualification

We are particularly interested in applicants who:

- Have strong people skills

- Are tech and social media savvy
- Have an intrapreneurial spark to make an impact on the next generation of personal trainers
  - Trainers with international experience and a wider understanding of the industry
    - Trainers who have specialist skills from CHEK, Gray Institute or Poliquin.

Successful tutors will also have the opportunity to access extensive CPD and further business opportunities as well as professional development that you won't get anywhere else in the industry. Due to this, we do not consider applicants who are working for other training providers.

If you are a strong fitness professional without the relevant teaching qualifications, we can put you through the qualifications internally if you are a right fit for the business.

If this role sounds like it's for you and you want to be part of a fast-growing company in fitness, please fill in the contact form below and we will contact you for a telephone interview.

Yours in health and fitness,

**The Redefining Fitness Team**
